MEMORANDUM FOR: Deputy Director, Plans

VIA : Chief, Special Requirements Staff, DPD *FOR*
Acting Chief, Development Projects Division

SUBJECT : Monthly Listing of Technical Proposals or New Ideas
in Scientific Methods of Collection

1. This memorandum is for your information.

2. The attached list is the May accumulation of items from PIC and Commo. TSS and OSI do not have any items to submit this month. The submitting office is indicated by side-heading and possesses any further information if desired. The list has been laterally disseminated to offices interested in new technical proposals or ideas.

3. Last month, [] said you questioned him regarding which offices received this information. For your information, TSS, Commo, SR, DPD, OSI, PIC, TRB, and FI receive this information plus other information which I send them from time-to-time to assist their offices in thinking of newer methods of collection. This latter material has recently included an up-to-date ARPA Projects Progress Report, a selection of TEMPO projects, an ATIC Collection Devices Projects list, and a list of Optical Society papers. Furthermore, they are kept advised of developments, as I learn them, of such activities as TEMPO in Santa Barbara and my present inquiries into allegations that an outfit similar to TEMPO is active under RCA in Princeton. Also, these offices get together informally once each month or two months to encourage cooperation and exchange of information among intelligence officers, operators, and research and developers.
